## CONTENTS

EXECUTIVE SUMMARY .....	3
ASSUMPTIONS .....	3
Appendix A: Population Forecasts .....	5
Appendix B: Enrollment Forecast .....	9

## EXECUTIVE SUMMARY

1. The resident total fertility rate (TFR) for the Westerly Public Schools district over the life of the forecasts is below replacement level. (1.74vs. the replacement level of 2.1)
2. Most in-migration to the district continues to occur in the 0-to-9 and 30-to-44 year old age groups.
3. The local 18-to-24 year old population continues to leave the district, going to college or moving to other urbanized areas. This population group accounts for the largest segment of the service area's out migration flow.
4. The primary factor causing the district's enrollment to decrease slightly is the low number of indigenous births coupled with in-migration of young households/families that is not quite large enough to compensate for the low number of children in the 0-4 age cohorts.
5. Changes in year-to-year enrollment (at least for the next five years) will primarily be due to smaller cohorts entering and moving through the school system in conjunction with larger cohorts leaving the system.
6. The total elementary enrollment will begin to stabilize after the 2020-2021 school year.
7. The median age of the population will increase from 44.3 in 2010 to 46.5 in 2030.
8. The primary cause in the decline of the high school enrollment after the 2023-24 school year is due to the wave of relatively small grade cohort currently in the elementary and middle school grades.
9. Even if the district continues to have a modest level of annual new home construction, the rate, magnitude and price of existing home sales will become the increasingly dominant factor affecting the amount of population and enrollment change.
10. Total district enrollment is forecasted to decrease by 129 students, or -4.7%, between 2018-19 and 2023-24. Total enrollment will decline by 33 students or -1.3% from 2023-24 to 2028-29.

## ASSUMPTIONS USED IN THE 2018 SERIES FORECASTS

1. The national, state or regional economy does not go into deep recession at any time during the 10 years of the forecasts; (Deep recession is defined as four consecutive quarters where the GDP contracts greater than 1% per quarter)
2. Interest rates have come off their historic lows and will not fluctuate more than one percentage point in the short term; the interest rate for a 30 year fixed home mortgage stays between 5.0% and 6.0% for the life of the forecasts;

3. The rate of mortgage approval stays at 1999-2003 levels and lenders do not return to “sub-prime” mortgage practices;
4. There are no additional restrictions placed on home mortgage lenders or additional bankruptcies of major credit providers;
5. The rate of housing foreclosures does not exceed 125% of the 2005-2007 average of Washington County for any year in the forecasts;
6. All currently planned, platted, and approved housing developments are built out and completed by 2027. All housing units constructed are occupied by 2028;
7. The unemployment rates for the Washington County and New London County will remain below 5.0% and for the 10 years of the forecasts;
8. The intra-district student transfer policy remains unchanged over the next 10 years;
9. The rate of students transferring out of the Westerly Public Schools will remain at the 2013-14 to 2017-18 average;
10. The inflation rate for gasoline will stay below 5% per year for the 10 years of the forecasts;
11. The state of Rhode Island does not change the current policy on open enrollment or school vouchers anytime in the next 10 years;
12. There will be no building moratorium within the district;
13. Businesses within the district and the Westerly Public Schools area will remain viable;
14. The number of existing home sales in the district that are a result of “distress sales” (homes worth less than the current mortgage value) will not exceed 20% of total homes sales in the district for any given year;
15. Housing turnover rates (sale of existing homes in the district) will remain at their current levels. The majority of existing home sales are made by home owners over the age of 60;
16. Private school and home school attendance rates will remain constant;
17. The rate of foreclosures for commercial property remains at the 2004-2008 average for Washington County;
